

## **Press Release**

Zurich, September 24 - 2007

International Java Technology Conference launches Call for Papers

## **Jazoon'08 invites international Java-Community for the 2nd time to Zurich**

**Jazoon'08 - the international Conference on Java Technology calls for submissions from Java and Open Source experts throughout the world to a professional engagement in Zurich. As from now proposals for the conference technical sessions can be submitted on [jazoon.com](http://jazoon.com). The conference will take place from 23 to 26 June and offers the perfect information exchange platform for the international Java Community where ideas and experiences can be shared and new solutions and trends are presented.**

In June 2007, 800 participants from 28 countries attended the first edition of Jazoon. In 2008, Jazoon'08 will present an attractive program from June 23 to June 26 at Sihlcity, Zurich including internationally renowned speakers. Jazoon Labs extend the conference program and offer participants the opportunity to apply and experience Java technologies with the support of experts. Even a sports highlight will cause a stir: participants can watch the UEFA EURO 2008 soccer semi-final live on a movie screen.

### **Announcement**

The Call for papers is now open. Java and Open Source experts from all over the world are invited to actively contribute to the Jazoon'08 program in order to identify suitable themes, to present solutions and to set trends.

Papers for peer-reviewed talks in technical sessions and Jazoon Labs should be submitted by 31 December. The benefits for speakers and criteria for qualification are described in detail on [www.jazoon.com](http://www.jazoon.com).

### **Experts for experts**

Under the direction of Joachim Hagger, CTO of Netcetera, and Patrick Walther, President of the Java User Group Switzerland, the Jazoon Program Committee consisting of international members will compile a first-class conference program inviting guest speakers and evaluating in the peer review process.

### **About Jazoon**

Jazoon is an international industry conference on Java Technology in Zurich. It addresses software developers and architects, IT decision-makers and consultants throughout Europe and around the world.

By creating positive surroundings and a communicative atmosphere, Jazoon helps personal contacts grow and transcends technical, geographical and cultural boundaries. A supplementary program including an exhibition of solutions, tools and continuing education and employment opportunities and various networking events will ensure added benefits for every target group. Sun Microsystems (Switzerland) AG and Elca Informatik AG (platinum sponsors), Keynode AG (producer), Netcetera AG (technology partner) and cR Kommunikation AG (marketing & communication) guarantee professional standards and quality of implementation.
